Sorensen delivered a splendid patriotic service and urged that the members be true to the flag and to the government for which it stands, to give liberally for the cause of the just war which was being waged and to conserve and save diligently that the government might not be embarrassed for finances to carry on the war.

He referred to the U. S. as being the light-house of the world and to which other nations were looking to for the solution of their problems. The service was splendid and much enjoyed by those present. What She Did

Narragansett Pier, R. I. — "I was all run down, back ached and tired all the time. I kept house for my husband and four children and could hardly keep around. Finally I tried Vinol and it has restored my health and helped me wonderfully, so I recommend it to others who are in this condition."

Mrs. Hannah Randall.

There is no secret about Vinol. It owes its success to beef and cod liver peptonates, iron and manganese peptonates and glycerophosphates, the oldest and most famous body-building and strength creating tonics. For sale by all druggists.—Adv.

DESCRIBES FIGHTING OF BRAVE AMERICANS

Reuter Correspondent with Amer-
ican Army on Aisne-Marne front
sends the following under Tues-
day's date:

"Yesterday was a day of cease-
less fighting, in which little ac-
tual progress could be made. The
enemy offered a most determined
resistance and brought up fresh
troops, but also he delayed us
for a day, my conviction is un-
dered that the Germans have no
intention of standing this side of
the Vesle.

"Thruout yesterday the enemy's
machine gun fire scarcely ceased,
even when apparently none of
our men were in the open. The
fire swept every bit of cover
where they might be expected to
be found.

"Shortly after they recaptured
Sergy, the Americans, who
forced the passage of the Ourcq
overnight, advanced up the hill
behind Sergy and after a fight in
which the bayonet and rifle butt
were almost alone used, took
Meurey farm, about a mile up the
valley.

"This was preliminary to an
attack on Serignes, as from the
farm it was possible to outflank
the Serignes defenses and ap-
proach them by a less steep as-
cent.

"The enemy held Serignes in
great strength. The village was
also protected by machine gun
nests on either side. The attack
was an almost incredible affair
for the coolness with which it
was carried out and for the mere
fact that it could be done under
such conditions.

"The assaulting troops formed
upon the south side of the Ourcq
on open ground. The enemy
opened up on them a heavy fire
of artillery and machine guns
along the slopes east and west of
the river. The ground in front
of the advanced lines was plowed
by the enemy's fire and the ad-
vance was obscured by clouds of
dust from the fields thru which
they were marching. Neverthe-
less the men forded the river with
drill-like steadiness.

"It was a wonderful perfor-
mance, astounding for troops so
recently blooded and as fine a test
as any to which the American
army has been put.

"The men went steadily up the
slopes, silenced one after another
the German machine gun nests
and swept on to the top of the
hill, then, wheeling eastward,
stormed the village. It was a
fierce fight. There was no ask-
ing or giving quarter. The ene-
my was stout-hearted and the
Americans glad to find him so.
They wanted that sort of a finish
to their ordeal. Some of the Ger-
mans fled into Neesles forest, the
remainder are where they will re-
main—in the village.

"The last success of the day

was the capture of Hill 12, above
Sergy, which, can now be held on
much securer terms.

"So, once more, the line is re-
established, altho the Germans
are still aptly holding the pocket
at Cierges, from which it seems
nobody has yet turned them."

THREATENS NEW ENGLAND FUEL SUPPLY

WASHINGTON, July 30.—In-
creasing demands for coal over-
seas and for the emergency fleet,
army, navy and other government
operations threatens seriously the
New England fuel supply for next
winter.

Intensive coal production in
Pennsylvania, Maryland and West
Virginia, the three states assigned
to supply the New England dis-
trict, it became known today, was
on July 13, at a rate of 77,000,
000 tons for the coal year begin-
ning April 1, while production on
that date should have been at the
rate of 91,600,000 tons.

Part of the production from the
Ohio fields probably will be di-
verted to New England to relieve
the situation.

The production of coal in the
western fields officials said is less
than the figures set by the fuel
administration as necessary, but
Indiana, Illinois and Ohio is ahead
of the mark set.

for the quarter amounted to \$52,-
399,483 and payment of the reg-
ular quarterly dividend of 1 1/2
per cent on the preferred stock and
1 1/4 regular and the usual 3 per
cent extra disbursement on the
common left a balance of \$19,-
017,375.

ARE NOT PERMITTED TO REMAIN IN ARCHANGEL

KANDALASKA, Lap-
land, July 30.—(By The Asso-
ciated Press.)—The Allied em-
bassies which recently left Volog-
da for Archangel were not per-
mitted to remain in Archangel
and have arrived in Kandalaska.
The embassies left Vologda July
25 in response to a message of M.
Tchitcherine, Bolshevik foreign
minister declaring that they were
in great danger and that a bom-
bardment of Vologda was threat-
ened for the next day. He urged
the embassies to come to Moscow,
but the ambassadors decided to
proceed to Archangel, where they
expected to communicate with
their governments. At Archangel
the soviet acting under orders
from Moscow refused to permit
the foreign representatives to re-
main but placed two small Rus-
sian ships at their disposal and
aboard them they left July 28 es-
corted by a Russian trawler, on
an uneventful voyage across the
White Sea. On the night they
were leaving Archangel it was re-
ported that the Moscow govern-
ment had ordered that the sailing
of the ambassadors be prevented.

HAVE AGREED UPON THE GENERAL TERMS

WASHINGTON, July 30.—The
German-Russian commission, con-
sidering the principles of the
Brest-Litovsk treaty have agreed
upon the general terms of the
Convention according to which the
ports received at the state de-
partment. The situation in Mos-
cow is becoming more critical
daily. Wholesale arrests have
been made and the jails of the
city are so crowded that other
buildings are being used for the
confinement of prisoners. It also
is reported that the Bolsheviks
have decided upon the disband-
ing of the red guard and begin-
ning the re-organization of a new
army along old lines. This is in-
terpreted by officials here to mean
that the Bolsheviks are carrying
out their announced plan of con-
scription and the forcing of the
craz's officers into their old posi-
tions with the army.

WAR COSTING BRITISH

\$34,920,000 DAILY.

London, July 30.—via Ottawa.
—The war is costing the people of
Great Britain \$34,920,000 per
day, or \$1,455,000 every hour, or
nearly \$25,000 a minute, accord-
ing to a statement prepared by
the imperial authorities, which
says:

"After four years of exhausting
war, Britain's credit is still un-
impaired. Her silver bullets are
being turned out by the hundred
millions and every one is finding
its billet. Her people are cheer-
fully bearing the ever-increasing
strain which has been placed upon
their shoulders and will spare no
effort in blood or treasure till vic-
tory is assured."
Britain's national debt has in-
creased during the war from \$3,-
\$25,000,000 to \$39,900,000,000,
or in excess of twelve times over,
and yet she is paying all—and
much more than all—her debt
charges out of current taxation,
while the new taxation raised by
Germany is not enough to pay the
interest accumulated upon her
war debt."

AGREEMENT RATIFIED.

New York, July 30.—The
executive committee of the Re-
publican county committee today

don in the twelfth and Morris
Hillquit in the twentieth dis-
tricts.

of Spanish gripe in that country
has grown to alarming propor-

thought to have been introduced
from Austria or Germany.

This brought the total of loans to
the allies to \$6,492,40,000.

SIR GEDDES REVIEWS NAVAL SITUATION

Defends Policy of Starting Nation-
al Shipbuilding Yards.

London, July 30.—Sir Eric Ged-
des, first lord of the British ad-
miralty, gave the house of com-
mons today a review of the naval
situation and particularly defend-
ed the policy of starting national
shipbuilding yards in discussing
the shipbuilding program in con-
nection with the navy estimates.
The first lord compared the situ-
ation today regarding tonnage with
that of a year ago. Then the net
loss in tonnage, he said was 550,-
000 gross tons monthly. Subma-
rines then were not being destroy-
ed as fast as the Germans were
building them, while the merchant
ships were short of men and
material. Four hundred thousand
tons net loss monthly was the
British deficit. Every yard that
could take naval work had been
put on naval building.

Gradually during the past year,
Sir Eric continued, the position
had changed in many directions.
Instead of losing tonnage the
world's net result in the last quar-
ter has been a gain roughly of
100,000 tons a month. The allied
and neutral world was as well off
on June 30 as on January 1, 1918.
This result, he declared, had been
obtained by reduced sinkings and
increased buildups.

The reduced sinkings had been
arrived at, said the first lord
of the admiralty by a greater pro-
ductive effort devoted to war-
ships and small craft of an anti-
submarine character. Nothing was
included of commandeered or ac-
quired tonnage in this result.

IRON
The Power Behind
Strong, Keen, Red-Blooded
Americans

"To help make strong, keen, red-blooded Americans there is nothing in my experience which I have found so valuable as an organic iron—Nuxated Iron." Says Dr. James C. McLaughlin, former physician of Bellevue Hospital (Under Dept.), New York, and the Westchester County Hospital, Nuxated Iron often increases the strength and endurance of weak, nervous, run-down people in two weeks' time. It is now being used by over three million people annually, including such men as Hon. Leslie M. Shaw, former Secretary of the Treasury, and ex-Governor of Iowa; former United States Senator Richard Rolland Kenney of Delaware, at present Major of the U. S. Army; General John L. Chen (Retired), the drummer boy of Shiloh, who was sergeant to the U. S. Army when only 12 years of age; also United States Judge G. W. Atkinson of the Court of Claims at Washington and others. Nuxated Iron is dispensed by all good druggists everywhere.

Now at Camp Meade, Md. The letter printed below was received by Mrs. Ella Williams of Concord from her son, George T. Williams, now stationed at Camp Meade, Md.:
Dear Mother:

We arrive here on the 5th of July from America, Ga. It is a fine place, much better than down in Georgia, and we do not have so much work either. The camp is situated in the hills and the timber looks just like it does at home and makes me think of hunting. The trip over the Blue Ridge mountains thru the state of Virginia was certainly a grand trip, the most beautiful scenery I have ever seen.

I haven't been on the rifle range as yet when I do get there I will try to qualify as a sharp shooter. Think I can do it, too. Do not worry about me any more than you can help. You ought to be proud of the fact that I am here, and I believe that you are. I have plenty of everything that a man needs and am feeling fine, and when I get back will be a better man in every way than ever before.

We came thru Washington, D. C., and I saw the White House from the car window. Have seen many interesting and historic places in the east and have enjoyed this part of it very much.

I hope to get to go across the water soon. Would like to be over there now to help the boys. Had to leave my best tree down in Georgia for some one else to get the honey. I have had quite a few letters in the last week. Send them all here and I will get them even if I am sent somewhere else. They have to change men around a good deal to fill up in different places, so you never can tell where you are going. I do not care what company or division I am placed in, and having a good time and it is worth a while to see all the country I have been thru. I want to travel more and see some more of the "sights." It doesn't seem very warm here, in fact, it is very nice. We have good water too, and that is worth a great deal. Be sure to send all my mail here and it will follow me wherever I go.

Your son,
George Troy Williams,
27th Co., 7th Battalion,
154th Depot Brigade.

OLD BOOKS FORM CONVENIENT METHOD OF SECRET COMMUNICATION.

Washington, July 29.—Books and periodicals can be sent to American prisoners of war in Germany only when they are ordered through the publishers and are dispatched from the offices of the publishers, the war department announced today. This ruling by the military censorship was made because old books form a convenient method of secret communication and require extraordinary scrutiny by the censorship forces.

GIVEN DISCHARGE.
Washington, July 29.—The war department in an order issued today announced the honorable discharge of Brigadier-General Charles R. Boardman, National Army, formerly attached to the National Guard of Wisconsin. The order said his services no longer were required.

ARMED PEASANTS.
Washington, July 29.—Seventy-five thousand armed peasants are marching on Kiev, capital of Ukraine, according to information received at the state department today from Stockholm. Very serious unrest in the Ukraine and surrounding country was reported.

LEMON JUICE FOR FRECKLES
Girls! Make beauty lotion at home for a few cents. Try it!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier at very very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly, if you can, into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear soft and white the skin becomes. Yes! It is harmless.—Adv.

WHY A CHAUTAUQUA IN WAR TIMES?

People too occupied to attend during the war? Haven't time or money? President Wilson is a reasonably busy man, perhaps as busy as any one. But President Wilson takes time regularly to attend places of entertainment. He finds it necessary to relax.

There were dark days in the Civil war. There were times when the president sat in meetings with his cabinet and all their faces were tense. They were facing great crises. It is told how President Lincoln would push back from the table and tell some funny story and laugh immoderately at it. And Secretary Stanton would be shocked. "Mr. Lincoln, have you not the care of your country on your heart?" Then the smile would fade from the sad, tortured face. "Ah, were I not able to tell that story and laugh and relax, I'd go crazy."

President Wilson's idea of Chautauquas is set forth in a letter written recently wherein he said among other things, "Your speakers, going from community to community, meeting people in the friendly spirit engendered by years of intimate and understanding contact, have been effective messengers for the delivery and interpretation of democracy's meanings and imperative needs. The work that the Chautauqua is doing has not lost importance because of the war, but rather has gained new opportunities for service. Let me express the hope that the people will not fail in the support of a patriotic institution that may be said to be an integral part of the national defense."

Right ideals are the impregnable trenches of democracy. The Chautauqua inculcates right ideals. Right ideals are the power behind the powder, the vision behind the sacrifice. Right ideals are the immortalized England and forced America to grasp the sword, never to sheath it until the world is made safe for democracy. Right ideals on the farms and railroads, in the banks and shops and stores and in the homes and kitchens will win the war.

Economy? For every dollar spent in the community for a right ideal many more are spent for wrong ideals.

Wrong ideals wrecked Russia, they menace America. We must keep our community submarine zone searchlighted with right ideals. "Keep the Home Fires Burning," that we may keep the camp fires burning. Culture must conquer "Kultur." Victory "Over There" begins here.

Economy? We must and will have recreation and need it more than ever in war time. The circus the other day took away as one day's receipts many times as much as the total cost of a ten-day Chautauqua, and the latter leaves a permanent impress for the better on the community.

Some of us are experiencing great sorrows and several trials. Many of us have lead most strenuous lives for a year or more. All of us need to get out of ourselves for a time. We need relaxation

WOMEN WHO FASCINATE

The art of fascination and attractiveness in women is founded on good health. Women who drag through long hours, days, weeks and sometimes months of suffering with headaches, backache and dragging-down pains soon wear the tell-tale expression of woe and misery. If every such woman would only turn to that good old-fashioned root and herb remedy, Lydia E. Pinkham's Vegetable Compound, to alleviate such ailments it would surely prove the greatest aid to health and consequent beauty that she has ever known.—Adv.

LIFT CORN PRICES
CHICAGO, July 30.—Falling
off in receipts together with the
less favorable aspect of war news
did a good deal today to lift prices
of corn. The close was strong,
1½c to 2c net higher with August
\$1.54½ to \$1.54½ and Sept. at
\$1.55½ to \$1.55½. Oats finished
at ½c decline to ½c advance and
provisions up 10c to 15c.

At first corn displayed weak-
ness owing to better weather and
to reports that Turkey and Ger-
many had severed relations. Sub-
sequently, however, the fact that
the Turko-German break had not
been confirmed led to a rally,
word came that huge counter-
attacks by the Germans in France
had not been wholly fruitless.
Then strength in the cash market
began to take effect and the at-
tention of traders focused on the
circumstances that receipts here
for the day amounted to only 100
cars, and that primary arrivals so
far this week had averaged 831-
000 bushels. Improved shipping
came from the east. Larger sup-
plies from the country kept oats
up. Good sized deliveries on July
contracts were expected.

Advances in the hog market
made provisions average higher.
Furthermore, cash demand was
better and shipments liberal.

Buoyant Health They Long
For.**

It is safe to say that right here in
this big city are tens of thousands of
weak, nervous, run-down, depressed
women who in two weeks' time could
make themselves so healthy, so at-
tractive, so full of life, so confident
that the world would be the admiration of
all their friends.

The vital health building elements
that these dependent women lack
are all plentifully supplied in Bio-feren.

If you are ambitious, crave success
in life, want to have a healthy,
vigorous body, clear skin and eyes that
show no dullness, make up your mind
to get a package of Bio-feren right
away.

It costs but little and you can get
an original package at any drug-
store anywhere.

Take two tablets after each meal
and one at bedtime—seven a day for
seven days—then one after meals till
you are cured. Then if you don't feel
twice as good, look twice as attrac-
tive and feel twice as strong as be-
fore you started, your money is wait-
ing for you. It belongs to you, for
the discoverer of Bio-feren doesn't
want one penny of it unless it fulfills
all claims.

Note to Physicians: There is no
secret about the discoverer of Bio-feren.
It is printed on every package. Here
it is: Lecithin, Calcium Glycero-

KANSAS CITY THINKS
WELL OF SOLDIERS

Men at Rahe Auto School Extended Many Courtesies—Carl E. Newport Writes About Work and Leisure Hours.

Carl Newport, former Journal employee, who is at the Rahe Automobile school at Kansas City, has written a Jacksonville friend of the courteous treatment accorded all soldiers at the school by the people of Kansas City. At the soldiers and sailors community club the people of Kansas City extend the boys in uniform every courtesy and the soldiers and sailors are made to feel that they are indeed welcome.

In his letter Mr. Newport writes: "There are billiard tables, writing desks, piano and some big easy chairs to lounge in. Meals are served at about half the price charged in any of the city cafes. Any of the soldiers who are passing thru the city on the way home or to other camps can secure cots at 35c a night. At the club the soldiers are afforded a place to wash and change clothes, to have mending done and there are shower baths at the disposal of all of the boys.

People are Generous. "These are only a few of the ways in which the Kansas City people are extending courtesy. It makes it mighty nice for the boys who are attending the Rahe school for if we come up here and register we don't have to wait very long until a big car will drive up and call for us and take us out, and if it is Sunday they will take you to church and then home to dinner, and the boys all appreciate that especially."

Mr. Newport then gives some additional facts about the Rahe auto school, where at least 25 Morgan county young men are now taking training.

"The school is located about 2 miles from the heart of the city in what they call North Kansas City and cars run out about every 15 minutes. The school occupies two large buildings, one of nine stories and the other of four. We have our barracks in the nine story one and have to walk up four flights of stairs and when we go to eat we have four more to climb in the other building. We also have a large drill field and truck field where we get training in drilling the large army trucks. We have five of the Pierce Arrow and twenty five of the Liberty trucks, and they sure have powerful engines altho the speed is only about 15 miles per hour. You have to learn every part of the machine and it is no small job.

Get Machinery Experience. "The school has fourteen different departments and we are now going thru them for the last time, get two days in each department and an examination at the end of the second day. I have fared pretty well so far but don't know how I will come out on the finals. You have to be able to tear a machine apart and put it together but I am pretty sure the majority will not be able to do it in so short a course, for we will leave here next month to make room for a larger bunch of men.

"We have quite a few Morgan county boys here and I think they are all getting along fine."

THE YOUNG PEOPLE'S SOCIETY OF ST. BARTHOLOMEW'S CHURCH OF MURRAYVILLE WILL GIVE AN ICE CREAM SOCIAL AND MUSICAL PROGRAM ON THE CHURCH LAWN THURSDAY EVENING.

TRACTOR DEMONSTRATION TODAY.

A demonstration of the I. H. Co. 10-20 tractor and three-bottom Jamesville gang plow will be given today by Martin Bros. at the Bufile farm just west of Nichols park. Plowing will continue thruout the day and many farmers and others interested will doubtless view the exhibition.

Tells of School Teaching Experience in Early Days—Made Good But Did Not Stick on the Job

Some years ago the writer was a teacher in the Jacksonville business college, among his students being S. A. Fairbank E. L. McDonald J. B. Williamson, James Crabtree A. D. Brackett Marshall Green Ottawa McAlister, Mr. Watt of Winchester Robert Ranson, George Daniels of Joy Prairie, Miss Bessie Kirby, Miss Hannah Irving, Miss McCutcheon, afterward Mrs. E. C. Simms, R. D. Russell and others.

One day there came to the college from the east part of the county a young man who said his name was John T. Osborne and we wanted to study bookkeeping. He was a very likely young man and the management felt glad to have him for a student but the second day of his term a man named Richard appeared before him and said, "Jack, we want you to come out and teach our school this year."

"I came to town to go to school and don't want to give it up."

"But we want you and will pay you well for coming."

"I have no teacher's certificate and don't know that I could get one."

"There is no fear on that score."

"But you wouldn't pay me what I would demand."

"Seventy-five dollars a month."

"Come out and begin Monday morning."

And Jack went on to say: "I went up to Murry Martin, then county superintendent of schools, and stood my examination and received my certificate and Saturday evening went out to my work, the schoolhouse being north of Alexander. I had to build the fire in the morning and do the sweeping as was the custom in those days.

Faced Irate Parent. "One day I had occasion to punish a child of a man named Sevier and the next morning while I was at the wood pile getting fuel for the day, Sevier came up full of wrath and demanded why I had whipped his child. I told him because the child deserved it. He was wroth and said he would give me a thrashing for it. I was young and vigorous then and I told him the school premises were in my keeping and if he dared cross that fence I would give him the worst pounding he ever had in his life.

"He blustered some more and I told him to come right on in if he saw fit but he didn't come but howled out. "I'll see that you are turned out."

"Go right ahead; I'm running this school and mean to run it as I please. I told the directors what to turn me out they can do so."

"He went tearing to Mr. Ruble and Thomas Wilcox, another director and demanded my immediate discharge but they told him to go on home and mind his own business; no doubt his child need all it got and possibly a little more. He saw there was no use in trying to get me out and gave it up."

Locked Boy in Desk. "I had another child that started to give me trouble. He was Calvin Stubbsfield, a dwarf, and owing to his infirmity had been spoiled at home and at school. I stood his capers as long as I thought best and told him he must behave. He was normal mentally and there was no reason why he shouldn't obey but he persisted in cutting up so I told him I would punish him if he didn't stop. He kept right on and I went to his seat, picked him up and put him into my desk and spun down the lid. There was shouting enough for breathing and I told him I would keep him there till he would promise faithfully to behave. He held out for quite a while but finally gave in and I had no more trouble with him.

"I didn't know how his father, James Stubbsfield, would take it but knew I was right. Next day I passed his house and he saw me and came out into the road laughing heartily. "Well, you shut Calvin up in the desk, did you?" he said.

"Yes I did. He had been disobedient and wouldn't mind and I gave him a dose which I think he will remember."

"You did perfectly right; He has been petted and spoiled too much already."

I finished my school year and got along all right and recall the months with pleasure. Calvin Stubbsfield grew large enough to be a stationary engineer and often came to the store to see me. He was my good friend ever since he was put in the desk."

Of course Jack didn't know his story was to appear in print but it was too good to keep. The sayings and doings of iminent men are always readable.

PARK BOARD IN
REGULAR SESSION

Diving Boards Will Be Placed at Pool—Routine Business Affairs, Given Attention.

The park board met in regular session last evening with all members present.

All properly approved bills ordered paid.

Superintendent Schaefer was instructed to get what he could from the wire that had been used around Central park July fourth and 17th. The matter of diving boards for the swimming pool was brought up. It was suggested that these appliances were much in demand, a high one for men and boys and a lower one for ladies and girls. They are now using an old boat which is not satisfactory. Messrs. Brennan and Gomes were made a committee with power to act in placing two diving boards at proper places.

Complaint has been made to the board that children being placed too near the monkey house or enclosure had been bitten by the animals. Mr. Brennan and Mrs. Hollinger were instructed to have a fence placed about the structure to keep the people at a safe distance.

The secretary was instructed to confer with Mullenix & Hamilton regarding the matter of bathing suits and also regarding having a man at the bath house in the forenoon. A good many people wish to use the pool during the morning but Mullenix & Hamilton have not felt that there would be enough patronage to justify the expense of keeping a man there to open the bath house and rent or care for suits.

It was decided to make no change in the matter of the annual payment due from the Christian church for the eating pavilion.

The owner of the land south of the park had decided to regard the west half of the dividing fence as his and had asked the board to keep in order the other half. The superintendent reported that he had put the east half in order and the president and secretary were instructed to notify the owner and tenant that the board elected not to keep up half the fence after the expiration of one year as the law will not require the board to keep up half the fence when it has no stock to fence in or out.

Mr. Gomes reported the arrival of lumber for the shoot the chutes and was instructed to have them repaired as soon as possible.

The superintendent reported a tennis court completed in the first ward playground at a small expense.

The chairman was instructed to take measures looking to the proper purification of the water in the swimming pool.

It was suggested that it would be well to have lights in the bath house and over the swimming pool but no action was taken.

COMMITTEE AT WORK FRAMING REVENUE BILL

Decides Against Increase in Passenger and Freight Transportation Taxes.

Washington, July 30.—Declaring against increase in passenger or freight transportation taxes, majority sentiment favoring a tax on both import and export trade is constitutional, and postponement of consideration of increased taxes on liquors and other levies were announced today by the ways and means committee which is framing the \$8,000,000,000 revenue bill. The committee deferred action as to extending the pipe-line tax (as to include companies piping their own products and also as to increasing taxes on life, marine and casualty insurance.

Representative Henry T. Rainey, of Illinois, acting chairman of the committee in the absence of Chairman Kitchin, who is detained at his home by illness, tonight issued this summary of the committee's work:

"We left the transportation tax as it is—three per cent on the amount paid for transportation by freight. We did not increase the tax on transportation of passengers. We did this for the reason that the Director General of Railroads under authority granted him already has increased freight charges 25 and passenger charges 50 per cent. The tax on berths, etc., was not increased.

"We discussed transportation of oils by pipe lines and did not agree on any proposition. We are going to return to that later. At present pipe lines operated as common carriers are taxed five per cent on the amount paid for the transportation. Whether this tax shall apply when carrying for themselves will be investigated."

"We also took up insurance—life, marine and casualty. The committee favored increases but we passed the proposition to be considered later when we receive more information.

"Then we took up title six of the pending bill the tax on beverages. We did not do anything about beverages. We determined to postpone the question of tax on beverages until the very last of all the items, due to the fact that if rates are increased there may be withdrawals of liquor before the bill goes into effect and we want to avoid that. One hundred and thirty gallons of whiskey are subject to withdrawal for beverage purposes and five million gallons can only be withdrawn for other purposes. The committee does not know whether it is going to increase the tax or not on account of the temperance proposition arising and the possibility of the country going bone dry.

"That brought us up to title seven, tobacco. We stopped there and will take up that subject tomorrow."

Mrs. Edward Ranft and guest, Miss Greta Bonnett were in the city Tuesday from Bluffs.
